Spectrometer Mount and Camera Detail Drawing

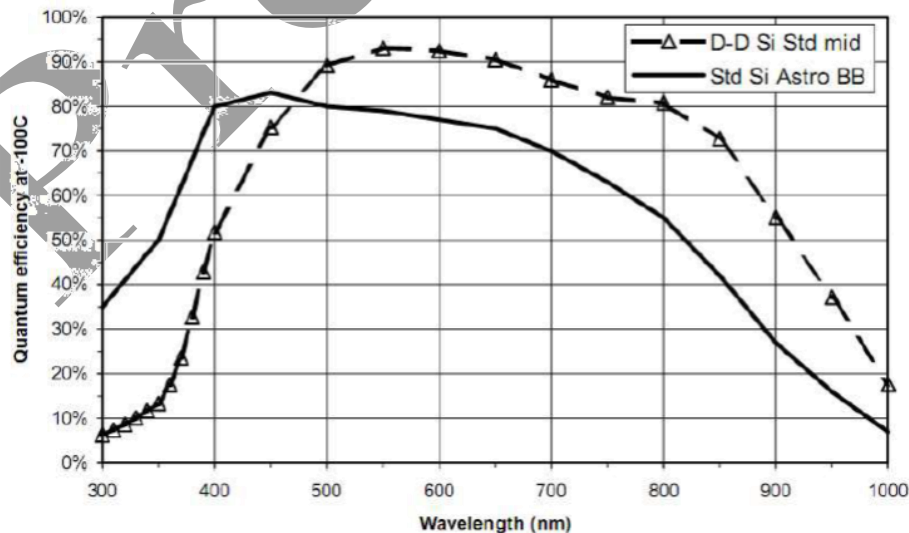

Additional Camera Specifications

Typical Spectral Response for the JSI's Zion 256 BI camera -20°C, No window (data taken from e2v CCD30-11-315).

Typical back illuminated quantum efficiency

Comparison of the typical spectral response for the JSI's Zion 256 BI and JSI's Zion 256 BI DD (data taken from e2v CCD30-11-315).
